Reviewer's report

Title: The association of levels of physical activity with metabolic syndrome in rural Australian adults

Version: 2 Date: 16 June 2009

Reviewer: Christos Pitsavos

Reviewer's report:

Although the authors provide us with answers in our comments in this revised version, the major limitation of the use of an crude questionnairie for the evaluation of physical activity status, exits.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
