Reviewer's report

Title: Smoking and mental illness: Results from population surveys in Australia and the United States

Version: 2 Date: 22 June 2009

Reviewer: Brett T Hagman

Reviewer's report:

I think the manuscript has been improved. However, I would encourage the authors to provide a better narrative within the results section and reduce the number of tables and figures. Further, the discussion section is still too long. I would suggest trying to reduce further as well.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
