Reviewer's report

Title: A global framework for action to improve the primary care response to chronic non-communicable diseases: a solution to a neglected problem

Version: 2 Date: 18 August 2009

Reviewer: Ivor Katz

Reviewer's report:

I have reviewed the manuscript again and although I acknowledge the issue of one of my co-reviewers that the manuscript may not bring new issues or facts it does provide and very good overview of the challenges and possible strategies to combat the NCD problem.

I would find the article acceptable for publication in its current form.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
