Reviewer's report

Title: Health service use in indigenous Sami and non-indigenous youth in North Norway: A population based survey

Version: 2 Date: 1 October 2009

Reviewer: Carolyn E. Stephens

Reviewer's report:

The authors addressed each of my comments after my first review of their article. This second effort is clear and well-organized. I believe that changes have also made it more interesting to a broader audience. With the revisions, the article findings can be related to experiences of Native Americans in the last century and probably other native populations that became minorities in their own lands.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
