Reviewer's report

Title: Rates of coverage and determinants of complete vaccination of children in rural areas of Burkina Faso (1998 - 2003)

Version: 2 Date: 16 September 2009

Reviewer: Peter PA Aaby

Reviewer's report:

It is much better

The language is sometimes “clumpy” – eg results in abstract;
page 10, lines 3-6 from bottom:
page 12: first paragraph in discussion

Sentences obscure:
page 7, 1st paragraph
page 19, I did not understand the last sentence

Page 9: line 1: should be three doses of oral polio
