Reviewer’s report

Title: Spatial distribution of Parkinson's disease mortality in Spain, 1989-1998, as a guide for focused aetiological research or health-care intervention.

Version: 2 Date: 3 August 2009

Reviewer: Felix Bermejo

Reviewer’s report:

In my opinion the author must clarify the absence of population based data of PD in South Spain and its implication in the findings

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
