Title: Overweight and obesity in urban Africa: a problem for the rich or the poor?
Reviewer: Iyeopu M Siminialayi
Reviewer's Report:
1. Minor essential revisions:
Line 7 on page 4, “The response rates (of?) the DHS surveys are very high,”
seems to be lacking a word.
2. Major compulsory revisions:
I find none. The authors’ revision of the results and discussion sections of the
original manuscript is satisfactory.
3. Limitations:
The limitations of the data have been duly acknowledged and is now presented
in an acceptable manner.
4. General Comments:
The question posed by the authors is well defined, the methods appropriate and
well described. The authors have satisfactorily revised the results section and the
limitations are now clearly stated. The abstract and title accurately convey what
has been found and the writing is acceptable.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a
statistician.
