Title: Community-based infant hearing screening in a developing country: parental uptake of follow-up services

Version: 2 Date: 14 July 2008

Reviewer: Christine Yoshinaga-Itano

Reviewer's report:

TMinor Revisions: the author/s have adequately responded to the request for revisions and I recommend publication of this article. There is very little information available about hearing screening activities in the developing world and this article is a significant contribution to our knowledge in this area.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
