Reviewer's report

**Title:** Mental health literacy as a function of remoteness of residence: an Australian national study

**Version:** 2  **Date:** 28 January 2009

**Reviewer:** Ali Montazeri

**Reviewer's report:**

This is an interesting paper that merits publication. I have evaluated the revised manuscript and reviewers comments and also have seen re-review suggestions. It seems that the authors have done a good job and all concerns are dealt with. However, in re-review report 2 again two minor points raised. I recommend the authors take notes of these two minor points and if possible consider these and if not just accept the paper without any revisions.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**
