Abstract: Please use the word odds instead of risk (poorly defined) in the results section.

Please add information to methods of how you dichotomized the physical activity variable (since the scale appears to be a Likert scale - how many levels?)

Please add information to statistical analysis section (in Methods) that state that you will consider adding co-morbidities into your multivariate models.

Tables: Please define all abbreviations: UI, N, BMI, SD, CI, OR, etc.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
