Reviewer's report

Title: Tiotropium's cost-effectiveness for the treatment of COPD: a cost-utility analysis under real-world conditions.

Version: 2 Date: 24 March 2010

Reviewer: Reijo Sund

Reviewer's report:

I think that the authors have addressed this concern adequately in their response (and their calculation technique is correct). It is of course possible to request that the authors mention their calculation technique explicitly in the manuscript (possibly with a reference) as someone else may ask the same question as the Referee 2.

Otherwise my comments about the manuscript would be very similar to Referee 3, and the authors have responded to them already.
