Reviewer’s report

Title: 2-aminoacetophenone as a potential breath biomarker for Pseudomonas aeruginosa in the cystic fibrosis lung

Version: 3 Date: 5 October 2010

Reviewer: Craig Winstanley

Reviewer’s report:

The paper has been improved and most of the microbiological issues have been addressed.

Minor Essential Revisions:
p10 still refers to B. cepecia, but should this not now be B. multivorans?

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
