Reviewer’s report

Title: Impact of air pollution on pulmonary function and respiratory symptoms in children during different seasons of the year. A cohort study.

Version: 5 Date: 2 November 2010

Reviewer: Francisco Gude

Reviewer’s report:

Authors can perform different statistical methods to address this study. Mixed models are a good choice and the statistical methods used sound well. The authors have revised the manuscript, and have taken into account the reviewer’s comments.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
