Reviewer's report

Title: Reduced rhinovirus-specific antibodies are associated with acute exacerbations of chronic obstructive pulmonary disease requiring hospitalisation

Version: 2 Date: 5 July 2012

Reviewer: Jennifer Quint

Reviewer's report:

I am happy that all the points raised in my initial review have been addressed.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
