Reviewer’s report

Title: Clinical significance of mTOR, ZEB1, ROCK1 expression in lung tissues of pulmonary fibrosis patients

Version: 4 Date: 20 April 2014

Reviewer: Edwin Roger Parra

Reviewer’s report:

The authors changed the manuscript with the alterations suggested; there are only minor essential revisions.
1. The figure B of the H&E is not with low magnification, please change this figure.
2. I suggest that the authors take the pictures of the figures in the same areas to do a good comparison of the different markers.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
