Reviewer’s report

Title: Exercise training for asbestos-related and other dust-related respiratory diseases: a randomised controlled trial

Version: 3 Date: 21 September 2014

Reviewer: Fatima Rodrigues

Reviewer’s report:

The revised version of the manuscript entitled "Exercise training for asbestos-related and other dust-related respiratory diseases: a randomized controlled trial" by Marita Dale and coworkers was corrected according to the comments pointed out to its previous version.

I thank the authors for accepting the suggestions, and once more congratulate them for the interest and originality of this work, which adds important data on exercise training effects in people with dust-related respiratory diseases.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests.
