Reviewer's report

Title: Exercise training for asbestos-related and other dust-related respiratory diseases: a randomised controlled trial

Version: 3 Date: 25 September 2014

Reviewer: Anne Holland

Reviewer's report:

Good revision.

In their response the authors have provided a good justification for recruiting more participants than required by the sample size calculation but did not add this to the manuscript. Given this discrepancy in numbers is a bit confusing for the reader it would have been nice to add it, but not essential.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
