Reviewer's report

Title: Primary Ciliary Dyskinesia (Siewert's / Kartagener's Syndrome): Respiratory symptoms and psycho-social impact

Version: 1 Date: 7 September 2003

Reviewer: michael coren

Reviewer's report:

General

Discretionary Revisions (which the author can choose to ignore)

Minor Compulsory Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
Page 3- 'the 9 + 2 architecture is disrupted by an abnormality of dynein arms would be better'
Page 3- foot. typographical error. Should be 'co-occur within families'
Page 4- top. 'Proper phenotype is not situs inversus but more likely random situs'is more correct
Page 4Para 2 Beter to write 'the effects of the condition on the overall health status'
Page 5- Sample from the support group may not be representative. This point should be expanded.
Page 5-typo in method section. The priciple difference was ..... the consent forms

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

Advice on publication: Accept after minor compulsory revisions

Level of interest: A paper whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Declaration of competing interests:
None
