**Reviewer's report**

**Title:** Serum interleukin-5 levels are elevated in mild and moderate persistent asthma irrespective of regular inhaled glucocorticoid therapy.

**Version:** 2  **Date:** 6 February 2004

**Reviewer:** Choon-Sik S Park

**Reviewer's report:**

General  
The revised MS with a title of "Serum interleukin-5 levels are elevated in mild and moderate persistent asthma irrespective of regular inhaled glucocorticoid therapy" by Jose Joseph, Sheela Benedict, Wassef Safa and Maries Joseph has been reviewed again. They have replied to the major and minor comments of mine with perfect revisions in the text and tables of the MS.  
Thanks
