Reviewer's report

Title: Hemoptysis, a developing world perspective.

Version: 1 Date: 25 September 2005

Reviewer: Philip Eng

Reviewer's report:

General

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
1) It is crucial to specify if the research is related to patients with massive hemoptysis or all patients with hemoptysis
2) The results and discussion sections are missing

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published
