Reviewer's report

Title: Hemoptysis, a developing world perspective.

Version: 3 Date: 3 January 2006

Reviewer: Joanna Moschandreos

Reviewer's report:

General
My main concerns have been adequately addressed.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
Use the term 'secondary objectives' rather than 'the other objectives'.

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field
