Reviewer's report

Title: Smoking, respiratory symptoms and likely asthma in young people: evidence from postal questionnaire surveys in the Wythenshawe Community Asthma Project (WYCAP).

Version: 3 Date: 10 May 2006
Reviewer: David Mannino

Reviewer's report:

General

My previous concerns have been addressed. Survey of respiratory symptoms in a young adult population showing that smokers in this age group have more respiratory symptoms that could suggest an asthma diagnosis (but also be early COPD)
