Title: Association between Anemia and Quality of Life in a Population Sample of Individuals with Chronic Obstructive Pulmonary Disease

Version: 2 Date: 17 July 2006

Reviewer: Matthias John

Reviewer’s report:

Re: Krishnan et al. Association between anemia and QOL in a population sample of individuals with COPD.

Regarding my comments from the first review of this manuscript I can state that the authors have addressed all raised issues that had prevented a publication of the manuscript in its prior form. The authors answered my points sufficiently well to allow their manuscript to be published in its present form.

What next?: Accept without revision

Level of interest: An article of importance in its field
