Reviewer's report

Title: Spatial and temporal expression of surfactant proteins in hyperoxia-induced neonatal rat lung

Version: 1 Date: 21 March 2006

Reviewer: Richard Auten

Reviewer's report:

General

**************************************************************************************

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

no compulsory revisions

**************************************************************************************

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

The authors should explicitly state why the did not choose to evaluate SP-B and SP-C protein expression.

**************************************************************************************

Discretionary Revisions (which the author can choose to ignore)

**************************************************************************************

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
