Reviewer's report

Title: Prescribing cycle training intensity from the six-minute walk test for patients with COPD

Version: 2 Date: 18 June 2007

Reviewer: Han C Kemper

Reviewer's report:

General
I have read the comments of the authors about randomization and accept their arguments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I declare that I have no competing interests
