Reviewer’s report

Title: Exhaled and arterial levels of Endothelin-1 are increased and correlate to pulmonary systolic pressure in COPD with pulmonary hypertension. An imbalanced output in the breath between Endothelin-1 and Nitric Oxide.

Version: 3 Date: 7 July 2008

Reviewer: Emmanouil Paraskakis

Reviewer’s report:

The authors have responded to the major and minor comments and revised the draft accordingly

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
