Reviewer's report

Title: The incidence of neovascularity in patients clinically diagnosed with rotator cuff tendinopathy

Version: 1 Date: 26 October 2009

Reviewer: George Murrell

Reviewer's report:

Minor Essential Revision

The authors did not comment on the presence of a rotator cuff tear. Presumably this was an exclusion criteria.

Please clarify.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
