Reviewer's report

Title: Atypical depression is more common than melancholic in fibromyalgia

Version: 6 Date: 22 April 2010

Reviewer: Emily Bartley

Reviewer's report:

The authors have adequately addressed my concerns. No significant revisions are required. There is a noted error in grammar on pg. 17 para. 2 that the authors may wish to attend to: "One final example of the non-specificity of diagnostic criteria in tour study..." should be changed to "our" study.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
