Reviewer's report

Title: Cognitive, fear-reducing information or individual symptom-based physical training in chronic LBP. A pragmatic, randomized, controlled trial with 1-year follow-up.

Version: 6 Date: 1 July 2010

Reviewer: Steven George

Reviewer's report:

The authors have responded to remaining queries, either by altering manuscript or by explaining reasons for not responding. I do not agree with all their reasons presented for not making the requested changes, but this seems to be a case in which we "agree to disagree".

I have no other suggestions at this time, but do encourage further English editing if possible prior to publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

'I declare that I have no competing interests'
