Reviewer’s report

Title: Associations between proinflammatory cytokines in the synovial fluid and radiographic grading and pain-related scores in 47 consecutive patients with osteoarthritis of the knee

Version: 6 Date: 6 May 2011

Reviewer: Joana Lopes

Reviewer’s report:

I have just one small comment, in page 13 line 22, they wrote "OCL transaction". The authors should write what OCL stands for?
I wish to congratulate the authors for the improvements on the paper.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
