Reviewer's report

Title: Decision quality instrument for treatment of hip and knee osteoarthritis: a psychometric evaluation

Version: 3 Date: 8 June 2011

Reviewer: diane dixon

Reviewer's report:

My original view of this manuscript was that it was a well written study in an area of important and relevance to the journal. However, the revisions to the manuscript have improved its clarity and precision.
I remain of the opinion that the manuscript merits publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
