Reviewer's report

Title: Temporary Clamping of Drain Combined with Tranexamic Acid Reduce Blood Loss after Total Knee Arthroplasty: A Prospective Randomized Controlled Trial

Version: 4 Date: 14 June 2012

Reviewer: Matthijs Krijnen

Reviewer's report:

The authors have provided sufficient alterations and revisions in the manuscript. It is now a clearly written paper. If possible a native English speaker should read the paper and adjust only some minor textual errors.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
