Reviewer's report

Title: Risk factors and clinical presentation of craniocervical arterial dissection: A prospective study.

Version: 2 Date: 12 August 2012

Reviewer: Michael Haneline

Reviewer's report:

The authors have adequately revised the manuscript, addressing all of my criticisms.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
