Reviewer's report

Title: Influence of Statins locally applied from orthopedic implants on osseous integration

Version: 3 Date: 3 October 2012

Reviewer: Michelle Ghert

Reviewer's report:

Minor discretionary revision (no re-review required).
It would be helpful if the authors qualified their data by stating that histological confirmation of infection was not obtained in the animals under suspicion.

Other than that, all points have been addressed extremely well.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
