Reviewer's report

Title: Ultrasound of the lateral femoral cutaneous nerve in asymptomatic adults

Version: 1 Date: 27 May 2012

Reviewer: Alberto S Tagliafico

Reviewer’s report:

1. Is the question posed by the authors well defined?  yes
2. Are the methods appropriate and well described? yes
3. Are the data sound?  yes
4. Does the manuscript adhere to the relevant standards for reporting and data deposition?  yes
5. Are the discussion and conclusions well balanced and adequately supported by the data?  no, too much emphasis on time, poor on clinical significance
6. Are limitations of the work clearly stated?  no
7. Do the authors clearly acknowledge any work upon which they are building, both published and unpublished? yes, but the paper cited have been studied superficially
8. Do the title and abstract accurately convey what has been found?  yes
9. Is the writing acceptable?  yes

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
