Reviewer’s report

Title: Expression profiles of muscle disease-associated genes and their isoforms during differentiation of cultured human skeletal muscle cells

Version: 4 Date: 10 December 2012

Reviewer: Sabine Krause

Reviewer’s report:

The authors responded satisfactorily to all issues raised and reviewed the manuscript accordingly.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
