Reviewer's report

Title: Arthroscopic guided biopsy and radiofrequency thermoablation of a benign neoplasm of the tibial spines area: a treatment option

Version: 3 Date: 20 October 2011

Reviewer: Sheila Chou

Reviewer's report:

Grammatical error - The statement "CT-guidance does not allow to monitor the cartilage surface..." is not correct. This should read something like "CT-guidance does not allow for direct monitoring of the cartilaginous surface..." or something of that nature. "...allow to..." is not grammatically correct.

The remainder of the changes are satisfactory.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
