Version: 8 Date: 4 December 2012

Reviewer: Masayuki Iki

Reviewer’s report:

The authors have revised the manuscript according to the comments and suggestions from the reviewer. There are some small errors as follows:

Discretionary Revisions:
1. L149 The authors do not have to add “unadjusted” and “the regression coefficients” should be “the logistic regression coefficients”.
2. Table 3: Too many decimals for Cases/patient•days. The three or four decimal places may be enough. “Patient/days” should be “patient•days”.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
