Reviewer's report

Title: Bilateral apical vertebral derotation technique by vertebral column manipulation compared with vertebral coplanar alignment technique in the correction of Lenke type 1 idiopathic scoliosis

Version: 2  Date: 30 March 2013

Reviewer: Gabriel Piza Vallespir

Reviewer's report:

No further revisions needed

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

The reviewer is the inventor of one of the systems (vertebral coplanar alignment) tested in this report.
