Reviewer's report

Title: Construct validity of functional capacity tests in healthy workers

Version: 2 Date: 5 April 2013

Reviewer: Jan Kool

Reviewer's report:

Dear Authors

Congratulation to this remarkable improvement. I'm very satisfied. The only point that needs further consideratrion is 'education', defined in the icf as

d820 School education

Gaining admission to school, engaging in all school-related responsibilities and privileges, and learning the course material, subjects and other curriculum requirements in a primary or secondary education programme, including attending school regularly, working cooperatively with other students, taking direction from teachers, organizing, studying and completing assigned tasks and projects, and advancing to other stages of education.

I think you mean the level of education which is something different. I can't offer a quick solution for this, maybe you can find help from someone with mre expertise.

Best wishes, Jan Kool

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
