Reviewer’s report

Title: Symptoms, signs and nerve conduction velocities in patients with suspected Carpal Tunnel Syndrome

Version: 1 Date: 10 March 2013

Reviewer: Johan Hviid Andersen

Reviewer’s report:

This is a companion paper to 2 other papers from the same group on CTS. In this paper the group presents highly relevant information to guide both clinicians and researchers in further studies of CTS. The paper is well written, clearly stated and analyzed.

Congratulation.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
