Reviewer's report

Title: Effect of Anterior Translation of the Talus on Outcomes of Three-Component Total Ankle Arthroplasty

Version: 3 Date: 26 June 2013

Reviewer: Christiana Savvidou

Reviewer's report:

Major compulsory revisions:
1. Results: lines 143-152, 156-160 are redundant since all these data are included in tables 3 and 4. Should be replaced with just a few lines explaining the tables.

Minor essential revisions:
1. grammatical errors:
   line 65: A study was needed,
   line 189: occurred in 3 cases in group A and in 5 cases in group B
   line 192: detected in 2 cases in group A and in 3 cases in group B
   line 194: was managed
   line 227-229: rephrase sentence to make better sense
2. in all tables should include in first line the type of measurement i.e mean +/-SD. especially in table 4 specify what values are included in brackets

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
