Reviewer's report

Title: Re-growth of an incomplete discoid lateral meniscus after arthroscopic partial resection in a 11 year-old boy: a case report

Version: 1 Date: 1 July 2013

Reviewer: Sean Waldron

Reviewer's report:

Discretionary Revisions:
1. Line 37: "Discoid lateral meniscus is quite common" - I wouldn't consider it "quite" common. Incidence would be helpful.
2. Line 54: "leaving a functional residual rim" - How much of a rim was left? Please quantify in mm.
3. Line 60: "In the meantime, he was going through a growth spurt." - How much did he grow during this time?

Level of interest: An article of importance in its field

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: No, the manuscript does not need to be seen by a statistician.
