Reviewer's report

Title: Spontaneous patella fracture associated with anterior tibial tubercle pseudoarthrosis in a Revised Knee Replacement following Knee Arthrodesis

Version: 1  Date: 8 August 2013

Reviewer: pericles Papadopoulos

Reviewer's report:

I find it very interesting and worth publishing.

Two remarks:

Page 3: sentence starting from furthermore..... Is not very clear and needs to be revised to better English. It would be better two sentences or ??

Page 6: conclusion . This is not conclusion, this is discussion!! Parts of the discussion have already been said in the introduction.
