Reviewer's report

Title: The effect of high dose antibiotic impregnated cement on rate of Surgical Site Infection after hip hemiarthroplasty for fractured neck of femur: A protocol for a double-blind quasi randomised controlled trial.

Version: 3 Date: 13 November 2013

Reviewer: Peter Pilot

Reviewer's report:

I am fine with the changes the authors made and what to complement them with the excellent study design.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
