Reviewer's report

Title: Biopsychosocial care and the physiotherapy encounter: physiotherapists' accounts of back pain consultations

Version: 2 Date: 2 January 2013

Reviewer: stephen may

Reviewer's report:

Minor changes, then ready for publication.

Background
Page 4 – patient-focussed
Page 5 – UK-based
Page 7 – physical therapists and physiotherapists both used – should be consistent, mostly latter is used
Page 15 – Blakeman et al [21] highlighted similarities.......... – this sentence belongs in the discussion, but not sure it really adds anything.
