Reviewer's report

Title: Factors Influencing Decision Making in Orthopedic Surgery - an international online survey of 1147 orthopedic surgeons

Version: 4 Date: 25 October 2012

Reviewer: Dawn Stacey

Reviewer's report:

The authors inadequately addressed my concerns from the last review. In fact, in their response to the last review feedback they only had a formal response to less than half of the feedback.

Level of interest: An article of insufficient interest to warrant publication in a scientific/medical journal

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
