Reviewer's report

Title: An intron polymorphism of fibronectin gene is associated with end-stage osteoarthritis in a Han Chinese population: two-stage case-control study

Version: 1 Date: 30 November 2013

Reviewer: Dongquan Shi

Reviewer's report:

Major Compulsory Revisions
1) Power of the study should be calculated;
2) Stratification of gender, BMI, GC+GG vs CC et al should be analysed.
3) Further statistic work should be done.
4) Case number of end stage is limited.

Level of interest: An article of limited interest

Quality of written English: Acceptable
