Reviewer's report

Title: Hyperuricaemia: a marker of increased cardiovascular risk in rheumatic patients: analysis of the ACT-CVD cohort

Version: 2  Date: 2 April 2014

Reviewer: Byron Hoogwerf

Reviewer's report:

The revised manuscript is satisfactory and overall the authors' responses addressed my concerns. The authors did not include my request to note that there were lipid differences in the RA group in the "limitations" section, but this is not a significant issue.
