Reviewer's report

Title: Influence of antiTNF-alpha antibody treatment on fracture healing under chronic inflammation

Version: 2 Date: 18 April 2014

Reviewer: Jason Bleedorn

Reviewer's report:

Minor Essential Revisions:

Thank you for the hard work to revise this manuscript. I have no further comments related to the context of the work. However, numerous typographic and english syntax errors remain, and should be addressed with the proofreading prior to publication.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
